Environmental Health & Safety

The Environmental Health Program licenses and inspects the following establishments within the City of St. Francis:

Restaurants
Tavern/Restaurants
Swimming Pools
Food Stores
Peddlers
Farmer Markets
Temporary Events
School/Cafeterias

A total of 78 Inspections, 7 Pre-inspections, 27 Re-inspections were completed. 92 orders were issued during 2014. Human Health Hazards inspections were also completed.

Grant Programs

The Health Department staff is involved with state-funded grant activities focusing on Community Preparedness, increasing immunization rates in the community, preparing a community health improvement plan and developmental screening of children.

Summaries of these program activities are detailed in grant contracts available at the Health Department.

Rabies Control

Wisconsin State law requires that if an animal bite occurs the animal is required to be quarantined for the possibility of rabies. The Health Department in partnership with the St. Francis Police Department conducts follow up for possible rabies exposure.

- 12 animal bites were investigated in 2014.
- 4 animals were sent to the State Lab of Hygiene for testing.

Beach Water Testing

This year the City of Racine offered a grant for Beach Water

Testing. Bay View Beach Water was tested.

19 samples were taken. As a result of these samples:

- 1 advisories
- 3 closures of the beach.

The advisory and closure was related to the amount of rainfall. This information was posted to a website and placed on a telephone hotline for residents to access. In addition signs were posted at the beach indicating water quality as good, advisory or closed.

School / Health Services

The St. Francis Health Department provides school health services to the St. Francis School District.

Nursing services include but are not limited to:

Communicable Disease control, Case management, identifying children with special health care needs, first aid, weekly illness surveillance, immunizations and immunization audits, consultations, screenings, teaching and referrals when needed. 8,982 Assorted School Services were administered in 2014.

Day Care Services

The Health Department provides consultation service to 2 day care centers. Immunization audits and weekly illness surveillance was conducted.

Immunizations

Childhood and adult immunizations were available at the Health Department. Influenza and pneumonia vaccines were also administered at the Health Department as well as at off site areas.

- vaccines administered: 121
- influenza vaccines: 378

Blood Pressure Clinics

Blood pressure screening, counseling and education were offered five times a month at various locations within the City.

- 489 blood pressure screenings were performed.

Maternal and Child Health Programs

- 90 infants were born to St. Francis residents in 2014.

Each family was offered a home visit comprising of a physical/psychological assessment of mother, infant, family and physical surroundings for safety. Informational packets were distributed to each new family.

Ages & Stages

- 30 toddlers were screened for developmental growth.

This is a grant funded program.

Public Health Nurse Visits

Nurses conduct home and office visits to provide consultation, assessment, health education, referrals and community resources.

- 663 clients were contacted in 2014

Emergency Preparedness

Health Department staff was involved with on going planning and implementation activities related to emergency preparedness. Activities in 2014 included but were not limited to: updating and maintaining our comprehensive Public Health Emergency Response Plan, achieving and enhancing department

competency and training, participating in mass clinic exercises and numerous drills, collaborating with community partners, attempting to

identify at risk populations within our city, mass clinics in response to outbreaks and City Ready Initiative assessment.

Working with Community Partners

- Distributed information to local health care providers regarding immunization compliance, signs/symptoms of diseases, reporting requirements, Public Health alerts.

- Health information to schools and daycares on weekly basis.

- Health information to City news letter, cable television community access station.

- Information regarding proper disposal of sharps and where they maybe taken.

- Displays of various health topics displayed at schools and senior housings.

- Advocate for Project Concern and Interfaith.

- Farmers Market located at St. Anne's Center.

- Worksite wellness, activity and nutrition for prevention and control of obesity and cardiovascular risk reduction.

- Walk to St. Francis Days. Sponsored by the Health Department.

- National Night Out

- Provide information to Family Life Center

- Witness the Fitness Sponsored by Health Department & School District.

- South Suburban Mayors Fitness Challenge

Mission:
To Protect and Promote the Health of All Persons
in the St. Francis Community

Vision Statement:
Healthy People in a Healthy
St. Francis Community
